HIGH PRESSURE AND BRUSH WASHING MACHINE WITH ROTARY TABLE

Cleaning heavy engine blocks and other greasy components are very easy now, thanks to KSP's new HPWM EVO.

HPWM EVO High Pressure and Brush Washing Machine with Rotary table, is designed to wash heavy and complex parts with high pressured water based solution and brushing unit.

HPWM EVO has providing effectively washing a variety of heavy and complex parts with foot pedal operated high pressure pump and foot pedal operated brush washing.

HPWM EVO has additionally great specification like as;
left side door for easy loading;
trolley with external loading;
turntable in order to effectively clean parts;
best viewing window during washing with motorized windscreen wiper;
IP67 LED lighting system for exceptional visibility....
All in the compact cabinet.

Trolley with external loading and turning table:

Trolley turntable where heavy items are to be processed it is often easier to load these items externally to the washing cabinet using an overhead crane or forklift truck.

Turntable is an extremely useful system. A fixed turntable inside the machine enables easy maneuverability of the components to be washed. This turntable can run with gear-driven (optional), but in standard model can be manipulated by hand.

HPWM Evo Series, with manual or automatically rotary basket according to your preference, provide the operator with a much easier and controlled washing experience.
